Pulse Dex Buys Block Monitor (10s)

Watch buys roll into the dex's block by block. Watch in realtime what is being bought across the blockchain.

Pulse Dex Buys Block Monitor (15m)

Same as above, except get a summary of the last 15 minutes of buys across the Dex's.

Pulse Dex Buys - New

Using the block by block Dex buys, we alert you whenever we see a new token never alerted before. This way you get an alert on the first buy and we provide intense rug checking.

Pulse Dex Buys - New Filtered

Same as above, but this is where we put the tokens we think are scams or rugs.

Pulse Launch() Alerts

Get the intense rug checking alerts for tokens that are triggered to trade with a known function like, Launch() or enableTradin(). We monitor 5 functions now and will add any you like.

Pulse Known Deployers Buy Tracker

Remember those known deployers we track for new tokens? Well now we track all their buys on Dex's too and alert them here.

Ethereum Plays

A topic just for sharing Ethereum Alpha plays.

Double Dex Alerts

For Ethereum and Pulse, get an alert in this topic whenever a project has updated both dexscreener and dextools images and socials.
